Great merriment was afforded by a contest in speed, charades and conundrums on flowers and trees.

GLUCESTER C. H., VA., Nov. 7.—A
Joint convention of the W. C. T. U. and
the Anti-Saloon League which was held
at Gloucester Courthouse on Saturday
was a most stirring one. Miss Mosher,
of New York, gave a wonderfully clever
address on the methods and working of
the White Ribboners. Mr. West, of the
Anti-Saloon League, made a strong
speech on temperance, and was pursuaded to repeat the same in the courthouse green on court day, when he had
a large and interested audience. These
two organizations are keeping the subject
of temperance well before the people. The
union prayer-meetings were inaugurated

Glouester Courthouse is rapidly becoming a very pretty village. The hotel is a quaint-looking hostel y. A new bank and handsome stores make the business portion of the town attractive. In the "West End," where the dwellings are mostly, Mr. C. E. Cary has just completed and moved into a very handsome house, it is a typical southern home, with wide-pillared porches and large windows. Hunting in Charles City.

(Bpecial to The Times-D spitch.)

SHITLET, VA. Nov. ..—With the beginning of the hunting season, many sportsmen are affeld after the various sorts of game that are plentiful in Charles City county, this season. The nearness of the county to Richmond and the unfailing hospitality extended by the "country cousins" to their town friends makes this section much sought after by city sportsmen. The large plantations are well stocked with brids, while the great areas of unfenced woodland offer fine opportunities for the deer and turkey hunters to enjoy great sport.

Edition of the Encyclopaedia Britannica, and would supply that famous set of books at Less Than Half Price, and on easy monthly payments amounting to only to cents a day. Our announcement brought thousands of applications for sample pages and full particulars, and the demand became so great that all available sets of the books were soon exhausted. The largest book manufactory in the United States found it impossible to keep pace with the demand, and we were notified to accept orders only for future delivery, which resulted in disappointment to thousands of our customers.

About one year ago our contract was renewed because of our great advertising and distributing facilities. At that time we insisted on the same price and the same easy terms as be-fore for our customers. The phenomenal result has been that

49,376 Sets

of the Encyclopaedia Britannica have been ordered, representing a saving to our subscribers of over Two Millions of Dollars! The great saving in price, the easy monthly payments and the undoubted merits of the Encyclopaedia Britannica explains the cause of this unprecedented demand.

Price Soon to Advance.

On account of the increased cost of materials used in the manufacture of books and the increased cost of labor, it has become necessary to advance the price of the Encyclopaedia Britannica at an early date to cover the extra expense. We have, however, arranged that this increase in price shall not go into effect until the edition just off the press has been distributed.

We therefore give fair warning to all, that Prompt Action is necessary to secure this king of all encyclopaedias at the low-

est price and on the easiest terms of payment.

For more than one hundred years the Encyclopaedia Britannica has occupied the foremost rank as a self-educator and work of reference. At intervals new and enlarged editions of the work have been published, thus keeping pace with the progress of the world. The new 20th Century Edition, which we now offer, occupies 31 magnificent volumes, containing nearly 25,000 pages, and covers every department of knowledge known to mankind.

That some sort of an Encyclopaedia is a necessity all must acknowledge. That the great Britannica is the very best none will deny. It is an Encyclopaedia in which each principal subject is treated by an acknowledged authority upon that subject. No other Encyclopaedia has given Ten Thousand Dollars for a single article or Six Hundred Dollars a Page for written matter. The fact that \$3,000,000 were expended in its preparation, requiring the labor of 2,000 of the world's greatest scholars, tells the story of its exalted superiority.

One dime a day for a short time will secure this great work. Who cannot spare 10 cents a day? There is no further excuse for not owning this great reference Library. Take advantage of this offer now Before It Is Too Late, and secure the work at
